

## PETITION FOR UNIVERSAL HEALTH INSURANCE IN WISCONSIN

I call on the people of Wisconsin and the State legislature to create a single payer system of universal health insurance that provides all Wisconsin residents with comprehensive coverage (including prescription drugs, long term care and freedom to choose doctors and other health care professionals). It would be funded through an insurance trust fund that uses both public and private monies that are currently spent for health care in Wisconsin. The financing for the program would be more cost efficient than the present system.
